

Ultrasonic Level Meter Series YW03-02

Features

- Less than 9° beam angle design, resolution 3mm, less than 200ms response time to make sure more accuracy.
- Wide range of application, sealed high-temperature toxic volatile, flammable and explosive or strongly corrosive liquid medium level measurement of non-contact ultrasonic sensors.
- Housing adopts the NLEPE synthetic material IP66 waterproof, anti-skid, anti-corrosion, anti-explosion structure.
- High quality terminal blocks, excellent anti-jamming is strong, long term stability and durability.

Specifications

Type	YW03-02
Advantage	No contact with measuring media
Range	5m、10m(Select at order)
Accuracy	±0.3%
Dead zone	<0.5~0.8m(Match the range)
Display	3 inch LCD
Output	4~20mA(Standard configuration)、0~20mA、1~5V、0~5V、RS485、4 channel relay output (relay contact capacity AC5A250V; DC10A120V)
Power supply	AC220V or DC12~24V; DC220V(Can select)
Size	Host machine(240*184*110mm) Sensor(68*57mm)
Mounting interface	G2
Sensor cable	10m Shielded cable
Working Temp.	Normal temperature, Normal pressure
